DUIJNHOVE
caring for beauty

Our story.

NL | Over Duijn-Hove

Duijn-Hove is gespecialiseerd in de teelt van groene en bloeiende potplanten. Ons aanbod is breed, maar onze focus is altijd hetzelfde: kwaliteit. Als echt familiebedrijf wordt onze ervaring van generatie op generatie doorgegeven. We zijn altijd op zoek naar manieren hoe het beter en anders kan. Het resultaat: onderscheidende producten met prachtig toegevoegde waarde.

UK | About Duijn-Hove

Duijn-Hove is specialised in the cultivation of flowering and non-flowering pot plants. Despite our varied product range, we always have a very clear focus: quality. As a real family business, our experience has been built up over several generations. We're constantly looking for ways to do things even better. The result: beautiful and unique products with tremendous added value.

NL | Samenwerking met What-Women-Want

Samen met What-Women-Want bieden wij trendy toegevoegde waarde artikelen aan. De consument heeft tegenwoordig volop keuze. De samenstelling van het assortiment in het schap wordt steeds belangrijker. Met een eigentijdse collectie, opgebouwd vanuit trends, kunnen we de klant blijven verrassen en inspireren.

UK | Partnership with What-Women-Want

In cooperation with What-Women-Want, we offer a range of fashionable added-value items. Consumers have so much choice nowadays that the product assortment is becoming ever-more important. We can help you to continue surprising and inspiring your customers with a contemporary collection built around the latest trends.

Neo Architect.

*Sansevieria
cylindrica*
in Jelle.

Neo Architect.

FLTR *Zamioculcas zamiifolia* 'Zenzi',
Sansevieria cylindrica 'Boncellensis',
Ficus microcarpa Ginseng and
Zamioculcas zamiifolia 'Zenzi' in Neo.

The image shows three potted plants on a dark, round table. In the foreground on the left is a small snake plant (Sansevieria zeylanica 'Fan') in a terracotta pot with white geometric patterns. Behind it is a taller plant with a thick, woody trunk and long, thin leaves (Beaucarnea recurvata) in a light green pot with white geometric patterns. To the right is a ficus (Ficus microcarpa Ginseng in Claire) with a thick, gnarled trunk and dense green leaves, in a black pot with white geometric patterns. The background is a blurred brick wall and a window.

The
luxury
of living
green
beauties.

FLTR *Sansevieria zeylanica* 'Fan'
Beaucarnea recurvata and
Ficus microcarpa Ginseng in Claire.

Phalaenopsis

NL | De Phalaenopsis groeit oorspronkelijk in de tropische regenwouden van Azië, Australië en Nieuw-Guinea.

Het is een geliefde orchidee die lang bloeit, soms wel drie maanden achter elkaar. Wil je nog langer van de bloei genieten? Met de juiste verzorging kun je proberen de bloeiperiode te verlengen. Wij hebben de Phalaenopsis in verschillende vormen, zoals de Twirl, Boog en Hurricane.

UK | The Phalaenopsis grows in the tropical rainforests of Asia, Australia and New Guinea. It is a popular orchid that flowers for long periods – sometimes up to three months. If you would like to enjoy its flowers for even longer, you can try some care tips to further extend the flowering period. We have several versions of the Phalaenopsis such as the Twirl, Arch and Hurricane.

Neo Architect.

Cambria

A cross between
different types of orchids

NL | Een Cambria is een kruising van verschillende soorten orchideeën en komt daardoor niet voor in de natuur. De gekruiste planten kunnen over de hele wereld vandaan komen. De Cambria bloeit zo'n zes weken. Wij hebben verschillende soorten in potmaat 12 beschikbaar.

UK | A Cambria is so it does not occur naturally in the wild. These hybrid plants can come from anywhere in the world. The Cambria flowers for around six weeks. If you're lucky, and follow a couple of simple care tips, your Cambria might even flower again later on in the year. We have various types of Cambrias available in pot size 12.

Deco-collection.

Year-round collection.

DECORUM CONCEPTS

NL | De terrariums van Decorum Concepts zijn prachtig. De gesloten ecosystemen zijn met de hand in elkaar gezet. De plantensoorten zijn zorgvuldig geselecteerd en daardoor uniek en exclusief.

Een levend kunstobject!

UK | The Decorum Concepts terrariums are simply stunning. These closed ecosystems are created by hand based on the careful selection of plant types, making each one unique and exclusive.

A living work of art!
